

COMPANY PROFILE

MES West GmbH

Operating under the brand name “MES Group”

MES West GmbH, based in Hamburg and operating under the brand name MES Group, is an internationally oriented service company with a clearly structured business model. The company combines several economically related business areas and provides practical, implementation-focused solutions for companies, investors, skilled professionals, and international business partners.

At the core of its business activities are the areas of international recruitment of skilled professionals, investment and project support, as well as operational, technical, and real estate-related services. The service portfolio is complemented by digital solutions and international business development.

Business Areas

International Recruitment of Skilled Professionals

MES Group places qualified skilled professionals from abroad with companies in Germany and supports the entire process, from the selection of suitable candidates to organizational preparation.

Investments and Projects

The company supports investors, entrepreneurs, and business partners in structuring, preparing, and managing economic activities and projects in Germany.

Operational Implementation and Facility Services

MES Group provides operational, technical, infrastructural, and real estate-related support services, including facility services, project-related coordination, as well as renovation and refurbishment measures.

IT and Digital Solutions

In addition, the company develops and supports digital, administrative, and process-oriented solutions related to its core business areas.

Global Business

Furthermore, MES Group brings together international business development, cross-border cooperation, and market-oriented network structures.

Positioning

MES Group positions itself as a modern, internationally connected, and operationally strong service company. Its particular strength lies in combining personnel services, projects, operational implementation, and international business development under one unified market presence.

Summary

MES Group is a Hamburg-based, internationally oriented service company. The company operates in the fields of skilled workforce recruitment, investments and projects, operational implementation and facility services, IT and digital solutions, and global business, offering integrated solutions for companies, investors, skilled professionals, and international partners.
